Usability and Compatibility Test Results

🟢 🟢 🟢 🟢 🟢 🔴	Browser	<<Version>>	We support the following browsers: Google® Chrome / Chrome Mobile Version 97 to most Current, Microsoft® Edge® Version 97 to most Current, Mozilla® Firefox Version 96 to most Current, Apple® Safari® Version 15 to most Current.
🔴 🟢	IP Address		website logs user activity as part of its security posture and must have access to the user's IP address.
	Location		For your convenience in establishing the location of a fire incident, we ask

🔴 🟢			you to provide access to browser-based geolocation. (How to enable geolocation in Chrome?)
🟢 🔴	Zendesk Widget		website uses ZenDesk to allow users to create support tickets.
🟢 🔴	AccessiBe Widget		website uses AccessiBe so that users can adjust the UI to meet their accessibility needs.
🟢 🔴	JS Blocking		Blocking JS when using interferes with usability.
🟢	Email Deliverability		has to deliver emails to its users e.g. password resets etc.

🔴			
🟢 🔴	Pop-ups		Blocking pop-ups when using Blazestack interferes with usability.
🟢	Document Generation	Verified	users generate reports in Microsoft DOCX/PDF.
